

We review our work plan and priorities each year. We will always focus on our core activities which are:

- ◆ Community wide engagement
- ◆ Volunteering
- ◆ Information and signposting
- ◆ Sustainability and Transformation Plans (STPs)

We will also be looking at the following issues that service users and service providers tell us are important:

- ◆ Access to GP services
- ◆ Mental health services – particularly support for people in crisis
- ◆ Changes to urgent care services
- ◆ Transitions between different services
